

Geocaching at Duke Farms

Geocaching is an outdoor-based, treasure hunt-style game that involves using a GPS app or device to locate hidden “geocaches” (i.e. containers of varying sizes).

There are two geotrails - or series of geocaches - at Duke Farms: the Duke Farms geotrail and the TALON geotrail. Both consist of ten caches with published coordinates as well as an eleventh cache, the coordinates for which can be found in two of the ten.

All Duke Farms’ caches contain a laminated card of a specific letter of the alphabet. Participants must write down each letter in this brochure and uncover the secret word(s) to be eligible to receive a commemorative token from Duke Farms’ Front Desk staff.

Concerning Puzzle Caches

The Duke Farms geotrail includes three puzzle caches, meaning the coordinates provided lead to a landmark that is the subject of a multiple-choice quiz, the answers to which reveal the cache’s location.

These quizzes can be found on Duke Farms’ website at www.dukefarms.org/geocaching/ or by scanning the QR code below.

1112 Dukes Parkway West
Hillsborough, New Jersey 08844
